LCD display. 8 softkeys for additional harmony options to simplify editing.. more One octave front panel keyboard for key and chord entry. Song mode for harmonies without midi. Comprehensive midi SysEx implementation. I accept PayPal only. Please ask questions as there are NO returns. I have tested this unit to the best of my abilities but am unable to test it fully. I see no reason for it not to have full function but again. I could not test it. Thanks for looking! In good physical condition. It powers on and the presets seem to work fine but they may not be in the proper scales. Im unsure. I sold this a couple of weeks ago and when the buyer received it he had trouble programming it and using it with MIDI. Prior to sending it out it worked perfectly. However, due to the problems listed above im selling it strictly as is for parts or repair with no returns. If youre planning on using the presets this may work for you as it has some cool effects or maybe you can figure out whats wrong with it and get it fully working again. Includes. Power supply, footswitch and connection cable. Pictures are of actual item youre considering. Thanks for checking it out. Features 5part intelligent scalic diatonic and chordal harmonies, Natural sounding harmonies, Editable harmony library, Chorus. Portamento, DJ voice special effects, Programmable vibrato speed. Depth and attack, Programmable harmony volume. Unbalanced, Connections Mic in. Line in, Line out, Harmony out Left for mono Harmony out Right, Headphone out, Footswitch in, MIDI in, MIDI out, MIDI thru, Power in, Indicators Input level. Program number, Signal Lock indicator, 32 character LCD display Just tested it tonight and everything works as

expected. Just to disclose. The volume slider is scratchy when you move it but settles when you stop and does not effect playability at all. This this is super cool for layered harmonies and the vocoder feature is awesome.

Comes with original box, power supply and a printed PDF manual. This thing is unbelievable for harmonies. And sounds so realistic you will not be disappointed. Please review our international shipping policy We typically ship to most places in EU. International buyers are responsible for all duty or custom fees in their country usually about 5 to 20% of total auction amount Also. Digitech Vocalist Live Pro is a rack processor based on the Vocalist Live 4 that includes a new MIDI interface that works with keyboards as well as guitars. Utilizing the patent pending musIQ technology combining new Note Detection algorithms with state of the art Harmony Generation and the raw power of AudioDNA2. The Vocalist Live Pro can create realtime harmonies with your live voice that are in key and perfectly on pitch. Plus, its available with a fully assignable optional. Features 3 or 4 part vocal harmony using the musIQ. Digitech Vocalist Live Pro has Selectable unison. 3rd, 5th or octave above or below of lead vocal.

Pitch correction for each individual voice with 4 adjustable parameters. Digitech Vocalist Live Pro's Lead vocal and harmony effects; Compressor. On board guitar tuner. Footswitch and expression pedal jacks for remote control of presets and effects. Power supply included. Type Vocal harmonizer.

Presets 99 User Memory 99. Vocalist Live 4 also features breakthrough musIQ technology to make it more intelligent. Vocalist Live 4s musIQ technology allows it to directly analyze the output of any electric or preamplified acoustic guitar. If you are looking for a tool to give your guitar various effects. The Vocalist Live 4 is all for you. This Digitech echo guitar pedal comes with MusIQ technology which analyzes the guitar signal as per chord structure and progression. The selectable voicing lets you adjust this Digitech guitar effect pedal above or below your lead vocal, adding a stunning effect. Experiment with the Vocalist Live 4 to its fullest as it boasts a builtin mixer,. This Digitech echo guitar pedal comes with pitch correction, having four adjustable parameters, which lets you adjust the pitch exactly as per your expectation. This Vocalist Live 4 is an amazing processor. With one step of your toe. You instantly have an entire harmony section to your vocals. But it does so much more too from adding Chorus. Compressor, Echo, Equalizer, Reverb, etc to your vocals, youll be amazed at what your voice sounds like. And if you perform live, your audience will be amazed too. The looks youll get the first time you begin singing in a fourpart harmony is priceless. The only reason Im getting rid of it is because Im primarily an instrumentalist and havent used it enough to justify keeping it. It needs someone who can get the most out of it. It is in likenew condition with everything therepower cord. Processor, owners manual, box, packing, even the original plastic bag the processor was wrapped in inside the box. You will not be disappointed. Check out the Comes with power cord.

When I plugged in the main screens shows as Copyright 1998 Version 2.02 for several seconds before appearing with User Memory Errors screen. I do not know how to fully test the unit and do not have the proper equipment to do so. All the buttons push down or move properly when pressednone appear to be sticky or broken Selling as is as seen in the pictures. Please see pictures for condition and feel free to contact with any questions. Items that qualify for the Global Shipping Program can be sent internationally. Otherwise shipping to the US only. Items generally ship within 24 hours after Paypal payment has cleared. Unpaid item cases will be opened 3 days after the listing has ended. I strive for 5 star service and 100% buyer. The unit analyzes guitar chord progressions in realtime and generates the correct harmony notes, either a third or fifth, above or below the lead vocal. Digitech Vocalist Live 2 is in average to good cosmetic shape and in fully functional condition. Original box, and the instructional manual, as shown in photos. Nothing else is included.
