Commerce Township, MI 48390. The top number in a blood pressure reading refers to the systolic pressure. It measures the pressure inside your blood vessels at the moment your heart beats. The bottom number represents your diastolic pressure. It measures the pressure in your blood vessels when your heart is resting between heartbeats. However, extreme low blood pressure can also be a serious health concern.

Weve compared it with as many as two other units at various test sessions. From the manual All digital blood pressure monitors require recalibration in order to ensure continued accuracy. Its a nice unit and works well otherwise, so its a quandry. I hate to toss it. Good luck. Mark in Oklahoma Login to post I have been working out and arm is now 15. Thanks for your help Eric in Fresno Ca. Regards, Miguel L. MartinsAlso, if you need a user manual, use this link to for personal care manuals. For all other manuals, use the home page link Hope this helps.Shaking of wrist with the cuff on. Measure again, keeping the wrist steady and at heart level during measurement. Wait 5 minutes and measure again. Hope this helps you. If you continue to have a problem with the monitor contact HoMedics Customer Support 8004663342. As most of their BP Monitors have a 5 year warranty.Guy please let me know if this does not fix, but it should.Its consistently giving high blood pressure. Weve compared it with as many as two other units at various test sessions. From the manual All digital blood pressure monitors require recalibration in order to ensure continued accuracy.
