3415 Pressure Sensor and Temperature Sensor Calibration The pressure sensor and temperature sensor built into the watch are calibrated at the factory and normally require no further adjustment. If you notice serious errors in the pressure readings and temperature readings produced by the watch, you can calibrate the sensor to correct the errors. To calibrate the pressure sensor and the temperature sensor 1. Page 8 Operation Guide 3415 Advanced Altimeter Mode Operations Using the Altitude Differential Value While Mountain Climbing or Hiking Use the information in this section to obtain more accurate altimeter readings, especially while mountain climbing or trekking. After you specify the altitude differential start point while mountain climbing or hiking, you can easily measure the change in the altitude between that point and other points along the way. This means that the starting ASC and DSC values for a new Altimeter Mode auto reading session are the values that currently are in memory. Page 10 Operation Guide 3415 Trek Log Values Mt.1 to Mt.14 High Altitude Value Low Altitude Value Cumulative Ascent Value Cumulative Descent Value To delete all manually saved data Memory contents cannot be deleted while trek log values are being recorded. 1. Use D to enter the Data Recall Mode. 2. Use B to display the Manually Saved Record Area page E69. 3. Hold down E for at least three seconds. First, Clear Hold ALL will ash in the display. After that, Hold will disappear. Page 11 Operation Guide 3415 To measure two nishes Using the Countdown Timer A C A C C Start Split First runner nishes. SPLIT appears in the upper part of the display. Display time of rst runner Stop Second runner nishes.

Split release Display time of second runner Reset The countdown timer can be congured to start at a preset time, and sound an alarm when the end of the countdown is reached. Subjecting the watch to strong impact can cause sensor malfunction or improper contact of internal circuitry. When this happens, ERR error will appear on the display and sensor operations will be disabled. We know from our users' experience that most of people do not really attach importance to these manuals. Many instructions, immediately after the purchase, go into the trash along with the box, which is a mistake. Get acquainted with the information concerning the manual for Casio 3415, which will help you to avoid troubles in the future. You will then acquire basic knowledge to maintain Casio 3415 in good operating condition to make it easily reach the intended life cycle. Then you can put away the manual on a shelf and use it again only in a situation where you're not sure whether you perform maintenance of the product appropriately. Proper maintenance is a necessary part of your satisfaction from Casio 3415. Once a year, clean the closet where you keep all your devices manuals and throw out the ones that you don't use.

<http://entrevoies.com/images/canon-5d-12.8-manual.pdf>

This will help you maintain order in your home base of manuals. Measured values are then shown on the display. The Bearing Memory screen displays the direction angle for the stored reading, along with a pointer that indicates the stored reading. Using an Altitude Differential Value The Altimeter Mode screen has an altitude differential value that shows the change in altitude from a reference point you specify. When this happens, ERR error will appear on the display and sensor operations will be disabled. Why is it worth reading If something bad happens while using a Casio 3415, you will have a set of documents that are required to obtain warranty repairs. It is in this part of the manual that you will also find information about the authorized service points of Casio 3415 as well as how you can properly maintain the device by yourself so as not to lose the warranty for the product. Use the instructions of the Casio 3415 manufacturer to run the product properly, without unnecessary risk of damage to the equipment. You will also be able to find out what optional parts or accessories to Casio 3415 you will be able to find and buy to your device. This is a very useful part of the manual which will save you a lot of time related to finding a solution. 90% of the problems with a Casio 3415 are common to many users. Read to optimally use the Casio 3415 and not to consume more power than is necessary for the proper operation of the product. You will learn what additional features can help you use the product Casio 3415 in a comfortable way and what functions of your device are the best to perform specific tasks. It is good to get acquainted with it to avoid disappointments resulting from a shorter exploitation time of the product Casio 3415 than expected. However, if you cannot be convinced to collect manuals at your home, our website will provide you with help. You should find here the manuals for most of your devices, including Casio 3415.

The site may not work properly if you dont update your browser. If you do not update your browser, we suggest you visit old reddit. Press J to jump to the feed. But with my 3415 model I cant seem to figure out how to get it to work. And the online manual says nothing about it. Also, if it does have automatic time setting, is there a way to turn it on and off. Or is it just always on. All rights reserved Back to top. Please try your search again later. All the models you asked about feature the tough solar label. Only one of those watches you asked about has tough solar and version 3 sensor combined the PRG 270. I know the 270 model, own it and use in the mountains of northern NH. All the models you asked about feature the tough solar label. I know the 270 model, own it and use in the mountains of northern NH. I own older Protreks too. The version 3 sensor is nice and fast. It quickly updates my altitude changes. This may or may not be important to you. All these Protreks are darn good. Keith All the models you asked about feature the tough solar label. All these Protreks are darn good. Keith While it is still on your wrist, adjust the temperature reading of the watch to match the air temperature of your surroundings. I think you will find that it will now accurately read the surrounding air temperature. While it is still on your wrist, adjust the temperature reading of the

watch to match the air temperature of your surroundings. I think you will find that it will now accurately read the surrounding air temperature. I did this many months ago, and I have found that it is very accurate. So you don't have to remove the watch at all!! While it is still on your wrist, adjust the temperature reading of the watch to match the air temperature of your surroundings. So you don't have to remove the watch at all!! It uses a tilt sensor to detect when the watch moves more than 40 degrees to turn on the backlight.

<http://www.hptindia.com/wp-content/plugins/formcraft/file-upload/server/content/files/162745f25b2be8--brother-546d-manual.pdf>

It uses a tilt sensor to detect when the watch moves more than 40 degrees to turn on the backlight. If you want to turn off this function, hold down the Light button until the LT disappears from the display. It uses a tilt sensor to detect when the watch moves more than 40 degrees to turn on the backlight. If you want to turn off this function, hold down the Light button until the LT disappears from the display. And what is the life of the battery? Still indicates H for high charge. Casio says 9 months to drain battery. Lifespan of battery not indicated. Here's the manual. Just a fresher watch. Some watch companies are international distributors therefore they can give better prices. Sometimes ridiculous prices because they have to move product. Just a fresher watch. Some watch companies are international distributors therefore they can give better prices. Sometimes ridiculous prices because they have to move product. Others have fresh pieces like retail authorized dealers. Therefore more expensive. At the end of the day it's your decision whether you want to have an experience at a store and connect with a jeweler or just buy online. UP TO YOU. Hope this helps! Just a fresher watch.
